I come from a poor migrate family and we worked all across this country picking fruit and vegetables. I learned at an early age to be true to myself and work hard. I grew up in San Antonio, Texas and when I got married, move to McAllen. I worked for Lack's for 20 years where I worked 6 days a week. I became a very successful sales consultant. The love I have for my grandchildren inspired me to become the author that I am today.
